

Your Donation Can Go Further with an Employer Match

More than 7,500 companies nationwide sponsor matching gift programs.

The amount of the matching gift ranges from a direct one-to-one match of a contribution to a three-to-one match now in effect at a few corporations.

While eligibility for matching gifts varies among companies, many employers will match gifts from employees' spouses, corporate directors and retired employees.

To find out if your company has a matching gift program, and for forms and information, please contact your employer's personnel or human resources office.
